The Billy Meier Case: True or a Hoax?

by Christian Frehner, FIGU Switzerland.

<https://shop.figu.org/b%C3%BCcher/der-billy-meier-fall-wahr-oder-betrug-the-billy-meier-case-true-or-a-hoax?>

Der Zweck dieses Buches ist die Präsentation einer fairen, neutralen und unvoreingenommenen Behandlung und Einschätzung des Billy-Meier-Falls.

The purpose of this book is to present a fair, neutral and unbiased treatment of, and approach to, the Billy Meier case.

→ An Important Preliminary Explanation

The purpose of this text is to present a fair, neutral and unbiased treatment of, and approach to, the Billy Meier case.

The method to achieve a result that is relatively congruent with reality is, by asking all those relevant questions that any sincere scientist or researcher would ask.

Getting at the core of reality and assessing facts, requires an open mind that does not shy away from staying on track, even when the findings contradict current views, beliefs and hypotheses etc.

Unfortunately, the world still greatly lacks people like Archimedes, Galileo Galilei or Einstein, among many others, who were capable of breaking through contemporary prejudices and beliefs, and brought forth new knowledge that led to a "chain reaction" of new findings etc.

Rational thinking is an endless quest to detect and reveal reality, because truth may be found only in facts, i.e. reality.

The truth stands in absolute opposition to any form of belief, because any belief – without exception – is per se, unprovable.

Based on this, the author stresses the fact that he neither intends nor wishes to convince anybody as regards judging or believing the Billy Meier case as being true.

Quoting Billy Meier here may add some elucidation:

"Contrary to conviction or persuasion stands certainty, which originates alone from a given fact and, therefore, from realness, reality and its truth, which may be proven throughout and has nothing to do with a conviction, but is integrated into an effective knowledge as well as into that which is given by, and which is factual through, reality and its truth."

Certainty is a firm, steadfast knowledge that can be proven through the verification of an issue, or through experience and the living of it, and therefore through reality and its truth."

The fact that the author closely collaborates with Billy Meier makes no difference whatsoever concerning the relevance of the following discourse, at least so long as he applies neutrality, logic and an absence of prejudice.

In fact, the familiarity between the author and Billy Meier will turn out to be a great advantage, based on the opportunities of first-hand and long-term observations, impressions, insight and understanding etc.

Semjase

76. Sure, there is no difference, at least if you ignore the fact that Earth humans often contain their pain at birth because they are already very effeminate.

'Billy' Eduard Albert Meier

Then the women will let the pain of childbirth endure all over them?

Semjase

77. Of course, this is the natural birth, which also influences the mother giving birth and the offspring and accordingly influences the manner of thinking in a positive and progressive wise.

'Billy' Eduard Albert Meier

Does that mean a woman should give birth without painkillers?

Semjase

78. Sure, because only this form is natural and brings great benefits for mother and child.

• *Plejaren women suffer the same pain during childbirth as all women elsewhere, but they do not use painkillers because the pain itself, is a natural part of the birthing process, that provides tremendous positive effects for both mother and child.*

'Billy' Eduard Albert Meier

... I would be very interested in how a birth is actually going on with you?

Semjase

74. After conception, the woman carries the child, which has only just to develop, for nine months in her body.

Semjase

75. Then the birth takes place in the same way as this is also known to the Earth humans.

'Billy' Eduard Albert Meier

This means that there are no differences in this case.

'Billy' Eduard Albert Meier

The women have pain and contractions during childbirth etc. like us?

'Billy' Eduard Albert Meier

..., how many years have you matured physically and consciously?

Semjase

81. If you think of the fertility, then the answer is 12 years, because with this age every human form is capable of producing offspring.

Semjase

82. Up to the age of 70, however, marital abstinence is usually practiced in order to make very strong efforts in intellectual and conscious matters as well as in activity and training in order to be able to educate oneself.

Semjase

83. This is also the minimum age, usually because marriage is considered.

Semjase

84. The pure body-maturity is completed at 18½ years.

'Billy' Eduard Albert Meier

Does that mean that the body has grown out?

Semjase

85. Certainly.

Semjase

86. Conscious maturity is also attained at 18 years of age, while the training period of an activity-based form, etc., is completed at around 70 years of age, which does not mean, however, that learning and evolution are stopped as a result.

Semjase

87. It is not the case with us, as it is unfortunately the case on Earth, that a person rarely acquires further knowledge after his regular training period, because with us the further training in material and consciousness-related form continues during the entire further life span.

'Billy' Eduard Albert Meier

Well, how is love now with you, I mean especially between man and woman?

Semjase

88. True love is a spiritual sensation.

Semjase

89. But emotions that arise purely from the world of thought exist in many forms.

Semjase

90. But a true love between man and woman is a very special spiritual sensation through which man and woman come together.

Semjase

91. In contrast to the mostly only emotional love, as it still prevails among terrestrial humans, our love is of a fine-spiritual-based nature and very pure, profound and therefore lifelong lasting.

Earth Human Being

'Billy' Eduard Albert Meier

As you surely know, we have created the so-called pill for our earthly overpopulation problems.

'Billy' Eduard Albert Meier

The question now is whether you also know something in this form, whether you swallow any medication or the like in order to keep the offspring rate within limits, which does not work with us despite the pill.

Semjase

145. The question is indeed a little unusual, but it is very justified.

Semjase

146. – No, we do not need these things, because in observance of the natural laws and recommendations, we align with their order and abide by the periodic rules.

'Billy' Eduard Albert Meier

So does this mean that you only make sexual love when this coincides with the female infertility period?

Semjase

147. This is not quite so, because human life-forms remain human life-forms as long as they are bound to physical bodies.

Semjase

148. Sexual needs also come to light outside the infertility period of a woman, so that the needs must also be met outside this period.

Semjase

149. However, in order not to produce offspring, there are many natural aids which we always observe and apply, but this does not rule out the possibility that exceptions may come to light and offspring may be produced unintentionally.

Semjase

150. However, every woman of our race has the technological means to detect an unwanted pregnancy within three days.

Semjase

151. If this is the case, then natural preparations trigger early menstruation, whereby the fertilised egg is rejected before it is able to develop.

Semjase

152. Therefore no abortion procedure, according to an earthly sense, takes place because no spirit-bearing life is destroyed by it.

Semjase

153. As you know, only at the beginning of the heart's activity and therefore, three weeks after procreation, does the spirit become established in a life-form of a human being, so that through this process of a prematurely triggered early menstruation only the substantial basic substances are ejected and no life is destroyed.

Semjase

154. This is not the case with terrestrial humans, because their ability to recognise a pregnancy is still very limited, so that they are only able to determine a pregnancy when the newly created life-form is already established and enlivened by the spirit.

Semjase

155. Destruction of the foetus in this state already means destruction of life in a murderous form, which is not in accordance with the natural laws and recommendations, except in real emergencies, when pregnancy or childbirth endangers the life or health of the expectant mother, or when other compelling reasons exist.

- *Instead of using birth control pills to prevent pregnancy, Plejaren follow the natural laws and recommendations, and have many natural ways to terminate pregnancy.*

// Plejaren Contact Report //

- *Plejaren terminate a pregnancy before the fertilized ovum bears a human consciousness, i.e. during the first 20 days after insemination.*

◆ Version of English translation: 18:22, 27 February 2020 Earth Human Being

'Billy' Eduard Albert Meier

... The first refers again to the pill.

'Billy' Eduard Albert Meier

You once told me that you were going to put some contraceptives in your food to keep the birth rate under control.

'Billy' Eduard Albert Meier

The last time you made contact, however, you said completely different things.

Semjase

3. Then you asked the questions very imprecisely:

Semjase

4. It is true that we add natural herbal contraceptives to our food.

Semjase

5. However, this only refers to the fact that this form of contraception is used when there is an excess birth rate, i.e. when overpopulation problems occur.

Semjase

6. This method is usually used when a race has reached the point where it recognises that a planet can only carry and feed a certain number of human life-forms without artificial intervention.

Semjase

7. So this is related to the evolution of mind and consciousness.

Semjase

8. Otherwise, however, it is also the case that all human life-forms in our worlds can voluntarily obtain the foods containing contraceptives in order to be able to regulate the number of births.

Semjase

9. Not everyone does, however, because human beings prefer to use other methods of contraception, although the active ingredients are not harmful in any way, which unfortunately cannot always be said of your contraceptives.

Semjase

10. In general the ingesting of these foods interspersed with active substances does not therefore occur, so everything can be taken purely voluntarily.

Semjase

11. A general mandatory taking of birth control has to be reintroduced in order to bring about a normal birth rate adapted to the respective world.

// Plejaren Contact Report //

• *Plejaren will use natural herbal contraceptives to prevent overpopulation.*
